# ABOUT US

## *Tentang Kami*

### Who We Are

Alpha Konstruksi Nusantara (AKN) is established in 2018. Providing specialized service in sub-structure construction, We took pride in consistently giving the best service and precise works for the clients satisfaction for various buildings.

From our headquarters in Bekasi, AKN has handled multiple projects all across Indonesia.

#### ◆ Vision Statement

Becoming the most reliable sub-structure contractor in Indonesia, making what was deemed impossible, possible.

#### ◆ Mission Statement

Providing high quality equipment to eliminate human error, and continuously develop our resources to deliver the best results.

## OUR SERVICES

*Layanan Kami*

### BORED PILE

Cylindrical bodies made of concrete which are installed in the ground to transmit high structural loads into lower, load-bearing soils.

Pondasi yang berbentuk tabung beton yang berfungsi untuk mengalihkan beban struktur ke tanah yang lebih dalam.

### SHORING SYSTEM :

#### *Soldier Pile & Contiguous Bored Pile*

Shoring Systems are temporary structural elements that serve to transfer loads during the various stages of construction. Enormous flexibility is offered through the use of modular scaffolding and can be adapted to suit virtually any geometry as well as different loads.

Sistem Shoring adalah struktur temporer yang berfungsi untuk mengalihkan beban dalam proses konstruksi. Rangkaian perancah (scaffolding) yang modular dapat diadaptasi untuk menyesuaikan dengan kebutuhan.
